SUMMARY

B.Tech IT student at HBTU Kanpur focused on Python, web development and backend technologies. Building full-stack projects using React, Node.js, Express.js, and MongoDB to develop practical skills. Worked with React, Django, Node.js, and MongoDB in project-based applications. Also explored basic machine learning concepts using Python.

SKILLS

Languages	Python, JavaScript, C, C++, SQL
Frontend	React.js, HTML5, CSS3, Tailwind
Backend	Node.js, Express.js, Django
Databases	MongoDB
Tools	Git, GitHub, VS Code, Postman, Netlify, Render
Soft Skills	Algorithmic Thinking, Collaborative Development, Technical Documentation

PROJECTS

GridSage AI — Electricity Demand Forecasting	<i>Python · Pandas · NumPy · Machine Learning</i>	2025
- Contributed to a 6-member research project to develop a time-series electricity demand forecasting system using Python. - Performed data preprocessing and feature engineering on synthetic hourly datasets with seasonal and peak-hour trends. - Applied train-test splitting and basic ML models for demand prediction and evaluation. - Contributed to research documentation and collaborative development workflow.		
Student Management System	<i>Django · HTML5 · CSS3 · Git</i>	2025
- Developed a web-based student management system using Django. - Implemented CRUD operations with form validation and Django ORM. - Managed project version control using Git.		
Web Development Practice Projects	<i>React.js · Node.js · Express.js · MongoDB</i>	2025
- Designed and deployed small practice projects while learning React, Node.js, Express.js, and MongoDB. - Created basic frontend interfaces and connected them with backend APIs. - Learned routing, API handling, component structure, and deployment basics.		
Task Manager — To-Do Application	<i>React.js · Node.js · Express.js · MongoDB</i>	2025
- Completed a simple task management application for learning full-stack development concepts. - Connected frontend and backend using REST APIs and stored data in MongoDB. - Improved understanding of React state management and backend routing.		

EDUCATION

Harcourt Butler Technical University (HBTU), Kanpur	2024 – 2028 (Expected)
B.Tech - Information Technology	
Asha Modern School, Saharanpur	2024
Class XII: 92.8%	Class X: 96%

CERTIFICATIONS & ACHIEVEMENTS

- Quest for Purpose — IIT Kharagpur , 2024.
- Full Stack Web Development by Angela Yu , 2025.
- Scored 96% in Class X and 92.8% in Class XII.
- Among the top-performing students in the branch.

EXPERIENCE

- Active contributor in GirlScriptSummerofCode 2026
- Worked on a research project using Python and basic ML techniques.
- Participated in hackathons and team-based technical events.
- Finished virtual internship / simulation-based training.
